

Victor Lagerkvist, Ph.D.

✉ victor.lagerkvist@liu.se

🌐 <http://www.ida.liu.se/~vicla67/>

Employment History

January 2025 –	📌 Senior Associate professor (biträdande professor) at TCSLAB, Linköping University, Sweden.
November 2021 – December 2024	📌 Associate professor (universitetslektor) at TCSLAB, Linköping University, Sweden.
May 2020 – October 2021	📌 Assistant professor (biträdande universitetslektor) at TCSLAB, Linköping University, Sweden.
April 2018 – April 2020	📌 Postdoctoral researcher at TCSLAB, Linköping University, Sweden.
March 2016 – March 2018	📌 Postdoctoral researcher at the institute of algebra, Technische Universität Dresden, Germany.
November 2012 – Februari 2016	📌 PhD student at TCSLAB, Linköping University, Sweden.
Juli 2012 – October 2012	📌 Research assistant at TCSLAB, Linköping University, Sweden.

Academic Degrees

2020	📌 Habilitation (docent), Linköping University, Sweden.
2016	📌 PhD in Computer Science, Linköping University, Sweden. Thesis Title: <i>Strong Partial Clones and the Complexity of Constraint Satisfaction Problems: Limitations and Applications</i> . Advisor: Peter Jonsson.
2012	📌 M.Sc in Computer Science, Linköping University, Sweden. Thesis Title: <i>Restricted Constraint Satisfaction Problems and the Exponential-time Hypothesis</i> . Examiner: Peter Jonsson.
2010	📌 B.Sc in Computer Science, Linköping University, Sweden. Thesis Title: <i>A Comparison of SL- and Unit-resolution Search Rules for Stratified Logic Programs</i> . Examiner: Ulf Nilsson.
2006	📌 Gymnasieexamen, IT-gymnasiet, Uppsala.

Publications

Academic Awards and Grants

- *Två till priset av ett: en algebraisk teori för sparsifiering och redundans. (Two for the Price of One: an Algebraic Theory for Sparsification and Redundancy).* The Swedish Research Council, PI, 2026-01-01.
- *Snabbare algoritmer och undre gränser för icke-monotona resonemang (Faster algorithms and lower bounds for non-monotonic reasoning).* The Swedish Research Council, co-PI, 2023-01-01.
- *Finkornig komplexitet för satisfierbarhets- och villkorsproblem (Fine-grained complexity of satisfiability and constraint satisfaction problems).* The Swedish Research Council, starting grant, 2020-01-01.
- Recipient of the 2017 young researcher price of the Ruth and Nils-Erik Stenbäck foundation.

Workshops and Seminars

- Speaker at *Logic and Search (LASH-2017)*, Melbourne, Australia, 2017.
- Invited speaker at *QuantLA research seminar*, Dresden, Germany, 2017.
- *SAT and Interactions*, Dagstuhl, Germany, 2016.
- Speaker at *Workshop on Qualitative Spatial and Temporal Reasoning (QUAC-2015)*, Dresden, Germany, 2015.

Supervision

- Main supervisor of Johanna Groven, PhD student, TCSLAB, Linköping University.
- Main supervisor of Mohamed Maizia, PhD student, TCSLAB, Linköping University and Jönköping University.
- Secondary supervisor of Henrique Miguel de Andrade Campos Navas, PhD student, Universidade de Lisboa.
- Secondary supervisor of Jorke de Vlas, PhD student, TCSLAB, Linköping University.
- Main supervisor of Leif Eriksson, PhD student, TCSLAB, Linköping University. Thesis Title: *Infinite-Domain CSPs and QBF: Fine-Grained and Parameterized Complexity*, 2025.
- Secondary supervisor of Baril Ambroise, PhD student, LORIA, Université de Lorraine. Thesis title: *Fine-Grained and Parameterized Complexity of Graph Coloring Problems*, 2024.
- Secondary supervisor of George Osipov, PhD student, TCSLAB, Linköping University. Thesis Title: *On Infinite-Domain CSPs Parameterized by Solution Cost*, 2024.
- Secondary supervisor of Biman Roy, PhD student, TCSLAB, Linköping University. Thesis title: *Applications of Partial Polymorphisms in (Fine-Grained) Complexity of Constraint Satisfaction Problems*, 2020.

Refereeing

- Reviewer for the *American Mathematical Society (AMS)*.
- Referee for several international conferences and journals in computer science, including the *International Conference on Principles and Practice of Constraint Programming (CP)*, the *ACM-SIAM Symposium on Discrete Algorithms (SODA)*, the *International Colloquium on Automata, Languages and Programming (ICALP)*, and the *International Symposium on Theoretical Aspects of Computer Science (STACS)*.
- Expert referee for six grant proposals from *Agence Nationale de la Recherche (ANR)*, the *Czech Science Foundation (GACR)*, the *Austrian science Fund (FWF)*, and the *Israel Science Foundation (ISF)*.

Service

- Supplicant in *DM-nämnden* (since 2023).

Service (continued)

- Program committee member for the *International Joint Conference on Artificial Intelligence* (IJCAI) since 2020.
- Member-at-large in the Technical Community on Multiple-Valued Logic (2020-2022).

Teaching

- Undergraduate level: examiner for TDDD14/TDDD85 (automata theory and computability), and TDDD08 (logic programming).
- Graduate level: examiner for DSII (discrete structures II).
- Earlier courses: TDP015 (discrete mathematics).
